

REBOUND
ELECTRONICS (UK) LIMITED

RoHS & WEEE Directives Statement

Rebound Electronics recognizes its responsibilities to the environment as well as its customers.

With the advent of the RoHS2 (Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment) and WEEE (Waste Electrical and Electronic Equipment) directives, we have reviewed our processes to ensure we are able to assist our customers to meet their responsibilities regarding these directives.

As an independent distributor of electronic components, we respond to our customers' requirements by sourcing product to the exact specifications as set forth by the customer. Although it remains the responsibility of the customer to accurately detail the exact product specifications, we shall, as always, endeavour to assist with any necessary fact finding in order to supply the product required.

Rebound Electronics does not undertake any design or manufacturing activities and cannot declare nor certify the chemical properties of resale components with regard to RoHS compliance. The declaration of chemical properties and RoHS compliance remains the responsibility of the component manufacturer. Rebound will advise the rohs status of the product at the time of quotation.
